

pyGroff, A tiny Syntax guide

Subhaditya Mukherjee

1. Arguments needed

- 1) -f : input file path
- 2) -o : output file name. (Dont give path!)

2. Main syntax

Note that you have to remove the <>

% <title> : Adds a title like the one in this document

@ <author> : Author name

<text> : move to the center (left is default)

<text> : move to the right

<text> : Heading level 1

<text> : Heading level 2.. and so on

- <text> : Lists

~ : if you want to use one of the above in a sentence but do not want it to be formatted. Like this document.

* <text> : bold

/ <text> : italics

3. Limitations for now

- 1) If you have added a title and an author, you must add a body or you will get errors
- 2) Formatting can only be applied to the whole row
- 3) If you are using < or > , please leave a line gap

Thank you
